**Subject: Questions**

1. Would you be in favour of mainland development on Lake Temagami?  
We are bound by the Tenets; I am interested to learn more and the conversations and emails shared by concerned lake residents is a wonderful learning tool. (Thanks!)

2. Would you be committed to reduce the tax burden imposed on cottage property by the MPAC assessment?  
Current Value Assessments are set by MPAC and I encourage everyone to request reconsideration if they feel their assessment is not appropriate. This affects all residents of the Municipality and would like to see an entire review and discussions with MPAC. I also believe the increase in taxes is a matter that must be dealt with by the finance committee and would like to see a review of the spending practices of the municipality.

3. Would you be committed to improving the access road, parking and docking facilities for Lake Temagami and other area lakes where they are necessities?  
There has been some good work done in the past years and would like to see how we can continue to do so in financially appropriate manner; user fees being one way to support the costs; but how to collect those fees is the question. I would be open to ideas and thoughts.

4. Would you be interested in considering the impact of house boats on Lake Temagami?  
I believe the businesses that have houseboats would be mindful of the concerns so long as they are addressed to them. I would be interested to know the concerns before making any decisions that may affect local businesses.

I love Temagami!
